PROFESSIONAL SUMMARY

4th-year Computer Engineering student at Ege University with a strong focus on game programming, gameplay systems, and low-level programming concepts. Solid background in C++, C#, and C with hands-on experience in game mechanics, AI behaviors, finite state machines, and performance-conscious design. Actively developing games using Godot Engine and Unity. Seeking a Game Programmer role at TaleWorlds Entertainment.

TECHNICAL SKILLS

Programming Languages: C++, C#, C, Python, Java

Game Programming: Gameplay Systems, Game AI, Finite State Machines, 2D Physics, Procedural Generation

Game Engines: Godot Engine, Unity

Computer Science: Data Structures, Algorithms, OOP, Memory Management

Tools & Frameworks: Git, Visual Studio, SQL, React, FastAPI

GAME PROJECTS

Cat War (2D Roguelike Game) – Godot Engine

Procedural generation, enemy AI (FSM), combat systems, performance optimization.

Screen Stickers – Godot Engine

Desktop application with interactive elements, sound systems, and persistent user data.

EXPERIENCE

Intern – Software Developer, Egebimtes Bilgi Teknolojileri A.Ş. (Sep 2025 – Oct 2025)

Backend & frontend development, debugging, code reviews.

EDUCATION

B.Sc. Computer Engineering – Ege University (Expected 2026)

B.Sc. Electrical & Electronics Engineering (Incomplete) – METU (2017–2020)

LANGUAGES

Turkish (Native), English (C1)
